WHOLE NUMBER 3832

## CRISIS SEEMS AT HAND IN MEXICO

Fears Are Entertained That Emis-sary Lind Will Meet With Violence on Visit to Capital—If So, It Will Precipitate Stern Action On Part of United States.

## WILSON HOPES FOR PEACE

Senator Bacon Appeals for Sup-port of President in His Policy, Urging That the Present Situation in Affairs With the Latin Republic Is One of the Utmost Gravity.

(By Federal Wireless Telegraph.)  
WASHINGTON, August 7.—(Special to The Advertiser)—If General Huerta, the de facto President of Mexico, insists that John Lind, President Wilson's emissary, is persona non grata and refuses to consider his suggestions, this will not of itself mean armed intervention in the Republic of Mexico.

This was made plain by administration officials here today. If that, however, should be developed as Huerta's position, it is probable that the embargo on the Mexican insurgents importing arms from the United States will immediately be raised. A majority of the senate favors such action.

Huerta's official declaration that he will not receive Lind unless the United States recognizes him as President is not taken seriously by either President Wilson or the senate.

The Constitutionalists, through Col. Eduardo Hay, head of their junta here, today advised President Wilson and Secretary of State Bryan that if they are permitted to purchase arms in the United States they will overthrow Huerta within three months. Because of this it is believed Huerta will do nothing more until he hears Lind's proposal.

The most serious danger in the situation is the possibility that persons in suits or violence will be offered Lind. If so sternest measures will immediately follow.

## SITUATION IS GRAVE, SAYS SENATOR BACON

(By Federal Wireless Telegraph.)  
WASHINGTON, August 7.—(Special to The Advertiser)—The Mexican situation is one of the utmost gravity. There is nothing beyond that word 'at-most.' Senator Bacon, chairman of the senate foreign committee, says:

This was his declaration in the senate in a discussion of the Mexican situation in which he openly and eloquently pleaded that partisan politics be eliminated in handling a crisis which is admittedly vital. Senator Bacon's statement came at the conclusion of an appeal that the President be allowed an opportunity to peacefully settle the existing crisis. It was called forth by Clark to allow his demand that the senate inquire into Mexican affairs to be referred to the foreign committee. Clark taunted the Democrats with having no definite policy towards Mexico saying:

"It has come to a point that in Mexico no man is so poor as a man owing allegiance to the American flag. We should have the facts." Senator Bacon immediately responded:

Of Utmost Gravity.

"This is a situation of the utmost gravity. There is nothing beyond that word 'at-most.' I speak advisedly when I say the public welfare demands that this is a matter of the utmost importance to be handled carefully. I believe that in less than a week the senate will be in a position to discuss the whole problem openly. The President has formulated a plan and is about to execute it.

Referring to Huerta's refusal to treat with John Lind, the President's envoy, Senator Bacon said:

"This message, evidently sent by an official in a moment of heat and temper, should not be considered as indicating final failure of the President's plan and the adoption of this resolution. Clark's resolution would not lead to early results.

## Gallant Captain Matson Comes To Rescue Of Maiden In Distress

Orders Honolulu to Make Quick Run and Blow the Extra Expense.

(By Federal Wireless Telegraph.)

SAN FRANCISCO, August 7.—(Special to The Advertiser)—An interesting race between two big steamships was commenced Tuesday afternoon, when the Matson steamer Honolulu, Captain Greene, left for Honolulu with orders to proceed to the island port at the best speed possible, even if hundreds of barrels of fuel oil in excess of the usual amount be burned.

Miss Mabel Thurlow, whose brother is an army officer in the Philippines, had been booked to sail on the transport Sherman, which sailed at noon on Tuesday. The train was late and the United States quartermaster department refused to hold the ship.

When Miss Thurlow arrived she chartered a launch and chased the Sherman, but the race was lost and the young woman returned disconsolate to port.

It was then arranged that she sail as far as Honolulu on the Honolulu, which was scheduled to sail at five

## Asks Pay For Loss Of Precious 'Be Still' Trees

## Botanical Wonder Described By Banana Jack

"Be Still" trees figured prominently yesterday before the banana court, a number of this new botanical species of arboreal shrubs being said to have been destroyed by the minims of the board of health during the banana-cutting campaign. Just what the "Be Still" trees are is hard to say, but "Jack" Kalkin, on behalf of a charming client, volunteered the information that "they are the kind of tree you get under on moonlight nights, when everything around be still."

Presiding Judge Rawlins suggested it would be well to plant a large number of "Be Still" trees along the Kalaheo avenue.

A Hawaiian woman, Kamekani by name, explained to the banana judges why she had placed a high valuation on the plants she had had cut.

"I was minamin and hubb when that happened, please your honors, but now I feel different," she said.

Asked if she still held to the \$250 per tree, she replied "it is up to the judges. I will take what they think is right."

One claimant lost a young valuable guava plant, even if the Mediterranean fruit fly has found the guava bushes to be excellent breeding places, and he wants only ten dollars for the destroyed plant. He had also some rare "pea trees" and some dollars each was not too much for these, he said.

Four mango trees were valued at ten dollars per tree. He said the "Ten-Dollar Man" throughout his bill of particulars, but he still downed sadly when he brought forty-two cotton plants and asked only a dollar piece.

"Say, I've lost a lot of money in cotton plants," said Judge Rawlins, and Associates Fernandez and Hopkins agreed with their colleague, "but if the price had been that high when I took a flyer in cotton, I would be a millionaire today." And he sighed.

## SEVENTEEN DIE WHEN PLEASURE POWER BOAT CAPSIZES IN GERMANY

Police Search in Vain for Day-light Prowler Operating in Kalih.

(By Federal Wireless Telegraph.)

WASHINGTON, August 7.—(Special to The Advertiser)—According to the declaration of one of our great leaders, war is hell. Senator Warren said in a speech today discussing the agricultural schedule of the Tariff Bill.

"This has never been denied," said

therefore I beg the liberty of saying that this bill is to be also hell so far as the farmer of the Northwest is concerned. About everything he has to sell, the use of his capital and his labor and the product of both, with but few exceptions, must meet the competition of the world with its cheap, poor, pauper labor, while everything he has to buy, bearing certain occasional pur-

CHASE, August 7.—(Special to The Advertiser)—Representatives of the Balkan States gathered in conference here today to sign the treaty of peace which has practically been forced by Roumania.

The new frontier, to which Bulgaria agreed only when Roumania threatened to occupy Sofia, if further delay was caused, will run from a point on the old frontier west of the Struma river to the Mesta river. This gives the port of Kavala to Greece.

Bulgaria's disappointment is soled by the hope that the frontier will be revised by the Powers.

POWERS NOTIFY TURKS TO LEAVE HOLY CITY

LONDON, August 7.—(Special to The Advertiser)—The first steps taken by representatives of the Powers to compel Turkey to evacuate Adrianople came today when the Ottoman government was notified that it must respect the treaty signed in London between the former belligerents.

The Turkish troops reoccupied Adrianople after war broke out between the former belligerents.

Engineer John Palau Fails to See Protruding Obstacle—Fractures Left Arm.

John Palau, engineer of the Oahu Railroad Company's yard switch engine, while running his engine over to the company's oil tanks to take on fuel, was struck by an obstruction, knocked from the engine cab and sustained a fractured left arm.

The police, who took the injured man to the hospital, report that the engine was running slowly toward the tanks at the time of the mishap. One pipe arm was down and unnoticed by Palau, who was leaning from his cab. He was thrown from the engine to the ground, and in addition to the broken arm, received a severe shaking up.

THE BUFFALO BILL IS IN DIFFICULTIES

TRENTON, New Jersey, July 28.—An involuntary petition in bankruptcy was filed here today against the Buffalo Bill Wild West and Pawnee Bill Great Far West shows. Service was made on Gordon W. Little, president of the company, controlling the shows. The company is a New Jersey corporation. Ancillary proceedings will be instituted in Denver.

The assets and liabilities were not stated in the petition.

small, dark and unventilated, the windows sometimes being nailed and shut. To nail one's bedroom window shut is to drive a nail into one's coffin. We spend more hours each day in our bedrooms than in any other room in the house, yet they are usually the smallest, least lighted, and least ventilated.

Sleeping out of doors is urged upon the consumptive, and it is probable that most of us would be in far better condition to resist tuberculosis if we slept out of doors a good portion of the year.

## MAN IN KHAKI STEALS A PURSE
